Professional Summary

Computer Science Engineering graduate specializing in Full Stack Web Development with hands-on experience building responsive and scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in React with Vite, Tailwind CSS, Redux, TypeScript, and RESTful API design. Passionate about clean code, problem-solving, and delivering complete end-to-end application features.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, React Vite, Bootstrap, Tailwind CSS

State Management: Redux, Redux Toolkit, Redux Saga

Backend: Node.js, Express.js, RESTful API Design

Database: MongoDB, Mongoose ODM, PostgreSQL

Tools: Git, GitHub, VS Code, Netlify, Vercel, Postman

Projects

E-Commerce Web Application | *React (Vite), Node.js, Express.js, MongoDB* 2025

- Built a full-stack e-commerce platform with a React Vite frontend and Node.js/Express.js backend, enabling fast and optimized page performance.
- Implemented user registration and login with form validation; securely stored user data (name, email, address) in MongoDB using Mongoose schemas.
- Developed RESTful APIs for product listings, user authentication, and order management; designed a responsive Tailwind CSS UI with shopping cart and checkout flow.

SmartHire – Job Recruitment Platform | *React.js, Node.js, Express.js, MongoDB* 2025

- Developed a full-stack recruitment platform using the MERN stack, connecting job seekers and employers through a streamlined hiring workflow.
- Implemented role-based access control for candidates and recruiters, supporting job posting, application submission, and applicant tracking.
- Built RESTful APIs for user profiles, job listings, and applications; created a responsive React.js interface with Tailwind CSS featuring dynamic search and filtering.

Car Showroom Website | *HTML5, CSS3* 2024

- Designed and developed a multi-page responsive car showroom website including home, car listings, and contact pages using HTML5 and CSS3.
- Applied Flexbox and CSS Grid for layout, ensuring full cross-device compatibility across mobile, tablet, and desktop screen sizes.

Education

Anjuman College of Engineering & Technology Nagpur, India

Bachelor of Technology (B.Tech) – Computer Science Engineering 2022 – 2026

- CGPA: 6.80

M.M Rabbani High School and Junior College Maharashtra State Board

HSC (12th Grade) 2021 – 2022

- Percentage: 66.17%

M.M Rabbani High School and Junior College Maharashtra State Board

SSC (10th Grade) 2019 – 2020

- Percentage: 78.60%
